Face & body wish list

Wonder *wand*

Some lash-conditioning products have received bad press recently for the drugs they contain, but **Dermaquest's new Dermalash (£98)** proudly lists its contents as 100% natural and safe, but still capable of stimulating hair follicles to bring a hint of Bambi to your peepers. Apply a small amount of the gel along the upper lash line just before bed, and they say within three weeks your lashes should look visibly longer.
